Halva

Best Liquorice Manufacturer 2025

*winner*

## Milestones

- Company was founded in 1931
- Manufacturing of extruded licorice started in 1951
- Today one of the biggest extruded licorice manufacturers in Europe
- Export to more than 20 countries
- More than 50% of licorice output is exported

# Halva

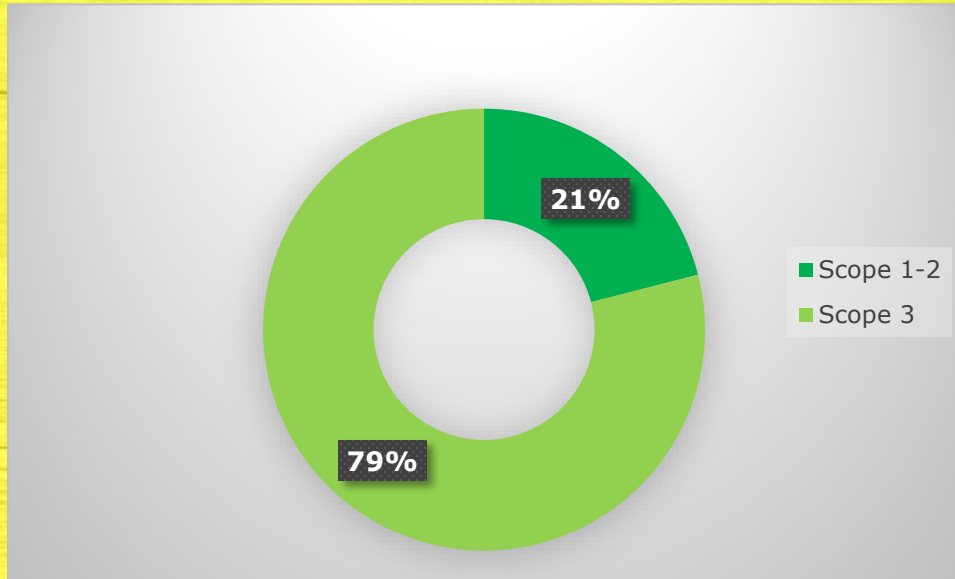

*Halva*

# Sustainability

- Environment: carbon footprint, emissions, packaging material, recycling of waste
- Energy from renewable sources
- By-products to feed, reduction of food waste
- No palm oil
- Ecovadis 2025: gold

# Halva carbon footprint

*Halwa*

## **By-products to feed**

- Minimizing food waste is the important goal
- Earlier hole in the ground and fill it with licorice
- Now by-products to feed for farm animals
- Therefore almost no biowaste
- Current solution is octabins of carton:
- **CHALLENGES:** transportation to Central Europe, big carbon footprint, need of local solutions (feed, bioethanol etc.)

# By-products to feed
